Limited special edition from Festool: ROTEX RO 150 in the 100 years Systainer³

**Promotion from 14 July to 30 November 2025 - while stocks last.
100€ cashback - also applies to the Limited Edition.**

Festool is celebrating 100 years of innovation, quality and partnership with the trade. To mark the anniversary, the company is presenting exclusive special editions of its most popular products - including the tried-and-tested ROTEX RO 150, packaged in the stylish blue 100 Years Systainer³. As a special thank you, customers will also receive a limited edition 100 years cap free of charge.

Since 1925, Festool has stood for pioneering developments that make professional work easier, faster and safer. The limited anniversary editions - including the DOMINO DF 500 dowel cutter, the TSC 55 K and TS 60 K plunge saws and special products such as the blue guide rail or the ECO SYS - are a tribute to a century of craftsmanship and technical excellence.

The original for uncompromising sanding performance

Festool introduced the first geared random orbit sander of its kind over 40 years ago: the ROTEX RO 150. With its unique 3-in-1 function - coarse sanding, fine sanding and polishing - it is still the all-rounder among sanders and an indispensable tool for professionals in the woodworking and painting trades.

Faster to the best result

The RO 150 impresses with its dual-mode technology: In ROTEX mode, it ensures powerful material removal, while in eccentric mode it produces the finest surfaces. The tool-free FastFix sanding disc holder and the ergonomic design enable comfortable working - even during long periods of use. The patented **MULTI-Jetstream 2 system** guarantees efficient dust extraction for clean results and a healthy working environment.

Better in the system

The RO 150 is part of the Festool system: Compatible with a wide range of abrasives, sanding discs in various degrees of hardness and perfectly matched accessories. Whether for renovation, furniture construction, painting work or vehicle preparation - the RO 150 always delivers precise results and minimises tool requirements.
