To our suppliers

Information RoHS2 with new substance restrictions for phthalates

Date
28.06.2019

Dear Sir or Madam,

The RoHS2 came into effect on 3 January 2013, replacing the RoHS1 (Directive 2002/95/EC). On **22 July 2019**, the "extended" RoHS Directive with new restrictions on the use of substances will come into force in the EU. Annex II of the RoHS Directive will thus be extended by the following four substances:

Our reference
FP / JENT
FQ-EU / DTHK

Butylbenzylphthalate (BBP)
Di(2-ethylhexyl)phthalate (DEHP)
Dibutyl phthalate (DBP)
Diisobutylphthalate (DIBP)

Homogeneous materials containing more than 0.1 percent by weight of the substances mentioned in each case may not be used in electrical appliances of the equipment categories listed in Annex I of 2011/65/EU.

We kindly ask you to inform us (material-compliance@festool.com) whether the items that are being distributed by you and delivered to us contain any of these restricted substances above limit.

If you have any questions, please do not hesitate to contact us.

Kind regards

Jens Thieme

Chief Purchasing Officer

Dorothee Koser
